# HARIHARAN SELVAM

**Full Stack Developer (MERN / Next.js) | Generative AI & Agentic AI Engineer**

Coimbatore, India | +91-9345997910 | hariiharanselvam@gmail.com | https://www.linkedin.com/in

## PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience in developing web applications and AI-powered solutions using React.js, Next.js, Node.js, TypeScript, and MongoDB. Experience in building scalable frontend and backend systems, REST APIs, workflow automation platforms, real-time applications, and AI-driven features. Strong exposure to Generative AI, RAG, LLM integration, AI agents, and application observability. Experienced in working across product development, cloud-based applications, and Agile development environments.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
**Frontend:** React.js, Next.js, Tailwind CSS, Responsive UI, Data Visualization Dashboards
**Backend:** Node.js, Express.js, REST APIs, Socket.IO (real-time), Redis, BullMQ (job queues)
**Databases:** MongoDB, Mongoose, ClickHouse (time-series / log analytics)
**Generative AI / Agentic AI:** LLM Integration, RAG, Prompt Engineering, LangChain, LangGraph, CrewAI, LangSmith, AI Agents, Multi-Agent Systems, Model Context Protocol (MCP), Embeddings, Vector Search, Token & Context-Window Management, LLM Evaluation
**Cloud / DevOps / Observability:** AWS (SDK, credential-based monitoring), Docker, Jenkins CI/CD, PM2, Git, Infrastructure / Log / Frontend (RUM) / LLM Monitoring, Agile / Scrum

## PROFESSIONAL EXPERIENCE

**SNS SQUARE CONSULTANCY** — Coimbatore, India

***Software Associate*** — Aug 2025 – Present

**Solution Builder** – *No-Code Workflow Automation & Observability Platform* | *Next.js, Node.js, TypeScript, AWS, ClickHouse*

- Developing an n8n-style visual workflow builder that lets users compose backend workflows by connecting 30+ tools and third-party integrations (Slack, Gmail, GitHub, Jira, AWS, Stripe) without writing backend code.
- Engineered the monitoring module where users connect their own AWS credentials to track infrastructure and application health, metrics and alerts.
- Extended the platform into Datadog-style full-stack observability – frontend Real User Monitoring (RUM), centralized log monitoring, error tracking and AI/LLM observability (token usage, cost and latency tracking).
- Built ClickHouse-backed storage for high-volume logs and telemetry, and containerized monitoring services with Docker for consistent deployment.

**Milai** – *AI-Powered Learning Platform* | *React.js, Node.js, MongoDB, LLMs*

- Built AI-generated personalized learning roadmaps for learners targeting specific companies and job roles.
- Developed a LeetCode-style virtual coding lab with company-wise and role-wise practice problem sets.
- Engineered an in-house code compiler with an AI evaluation layer that compiles, executes and scores submitted code and returns feedback to learners.

***Junior Software Associate*** — Aug 2024 – Aug 2025

**HyreDragon** – *AI Hiring & Real-Time Proctored Assessment Platform* | *MERN Stack, LLMs*

- Built the job creation and interview-round configuration modules for a HireVue-style platform where HR teams hire candidates directly or through a public job marketplace.
- Implemented LLM-based generation of job descriptions, interview questions and candidate evaluation reports, reducing manual effort for recruiters.
- Designed a dynamic question-dataset generation system to keep assessment content fresh and role-relevant.

**StartzyAI** – *Idea-to-Innovation Startup Validation Platform* | *MERN Stack, AI*

- Built an idea-validation platform helping students and entrepreneurs validate use cases with real stakeholder feedback and move from concept to prototype.
- Developed the competitor analysis module with AI-driven auto-suggestion of relevant competitors.
- Built survey, customer segmentation, empathy map, SWOT analysis and Business Model Canvas (BMC) modules powering user research and pitch-deck generation.

## CERTIFICATIONS

- **Databricks Certified Generative AI Engineer Associate** – Databricks
- **Agentic AI Course** – Analytics Vidhya (RAG, LangChain, LangGraph, CrewAI, LangSmith, AI Agents)
- **Claude Code in Action** | **Introduction to Model Context Protocol** | **Introduction to Agent Skills** – Anthropic

## EDUCATION

**Master of Computer Applications (MCA)** – Dr. SNS Rajalakshmi College of Arts and Science, Coimbatore — 2022 – 2024

**B.Sc. Computer Science** – H.H. The Rajah's College, Pudukkottai — 2019 – 2022
